Professional Summary

Aspiring UI/UX Designer and Frontend Developer passionate about creating intuitive and user-centered digital experiences. Skilled in Figma, HTML, CSS, and JavaScript with hands-on experience designing mobile applications and developing responsive web interfaces. Strong problem-solving mindset with active participation in hackathons and collaborative projects.

Education

Bachelor of Engineering in Computer Science Engineering 2024 – 2028

Chandigarh University, Punjab

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Management Systems

Technical Skills

Frontend Development: HTML5, CSS3, JavaScript, Responsive Web Design

UI/UX Design: Figma, Wireframing, Prototyping, User Research, User Flows, Design Systems

Programming Languages: C, C++

Tools: Git, GitHub, VS Code, Behance, Framer

Platforms: Linux, Arduino

Projects

ShopBazaar – E-commerce Mobile App Design [Prototype Link](#)

Figma, User Research, Wireframing, Prototyping

- Designed a modern mobile shopping application focused on improving product discovery and checkout experience.
- Conducted user research, competitor analysis, and created user personas to identify pain points.
- Developed wireframes, user flows, and high-fidelity prototypes using Figma.
- Improved usability through intuitive navigation, consistent design systems, and accessibility-focused decisions.

Campus Connect – Student Community Platform [Live Demo](#)

HTML, CSS, JavaScript

- Developed and deployed responsive web platform connecting students through events, clubs, and campus activities.
- Built modern UI components using HTML, CSS, and JavaScript following a mobile-first approach.
- Implemented interactive sections including event listings, announcements, and navigation systems.
- Optimized responsiveness and user experience across desktop, tablet, and mobile devices.

Leadership & Activities

- Actively participated in hackathons, design challenges, and technical competitions.
- Collaborated with multidisciplinary teams during project development and hackathons.
- Organized and managed college-level technical and community events.
- Mentored peers in project development, design thinking, and coding practices.
